SUMMARY

Experienced Software Engineer with 2.5 years driving robust backend systems and DevOps for high-throughput SaaS applications. Proven expertise in **cloud** infrastructure, **Kubernetes**, and **system design**, focused on enhancing **performance** and **cost efficiency**. Adept at **collaboration** and **leadership** in fast-paced environments, committed to **engineering discipline** and **platform reliability** for delivering scalable solutions.

EXPERIENCE

TechSolutions Corp

June 2024 – Present

Software Engineer

Bangalore, India

- Spearheaded the design and **architecture** of scalable backend services using Go and **Python**, improving system **performance** and **reliability** for enterprise SaaS applications.
- **Implemented** and managed **DevOps** pipelines with **Kubernetes**, **Docker**, and **AWS**, automating deployments and reducing release cycles by 20%.
- **Optimized cloud** resource utilization and **governance** strategies, **driving finops** initiatives that reduced infrastructure **cost efficiency** by 15% while maintaining high availability.
- **Collaborated** with cross-functional teams to **define kpis** and **engineering discipline** standards, ensuring **code excellence** and seamless integration of new features.

InnovateTech Labs

June 2023 – December 2023

Software Engineer Intern

Bangalore, India

- **Developed** and **implemented** responsive user interfaces using React and TypeScript, enhancing user experience and engagement for key product features.
- Contributed to full-stack feature development, integrating Node.js backend APIs with PostgreSQL databases to support new functionalities.
- Utilized **Git** for version control and **collaboration** within an agile development team, ensuring efficient code delivery and review processes.
- Participated in **system design** discussions and code reviews, **applying** best practices to improve code quality and maintainability.

PROJECTS

Cloud-Scale Microservices Platform | Go, Kubernetes, AWS, Prometheus

- **Architected** a **cloud-native** microservices platform using Go and **Kubernetes** on **AWS**, enabling automated database provisioning and scaling.
- **Designed** and **implemented** a robust telemetry system with Prometheus, providing real-time monitoring and **performance** insights for critical services.
- **Developed governance** policies for resource allocation and access control within the **Kubernetes** cluster, ensuring secure and efficient operations.

AI-Powered Resume Screener | Python, FastAPI, OpenAI API, PostgreSQL

- **Built** an **AI-powered** resume parsing engine using **Python** and FastAPI, leveraging OpenAI API for intelligent content extraction and analysis, incorporating **machine learning** principles.
- **Designed** a scoring algorithm to match resume content against job descriptions, improving recruitment efficiency by 30%.
- Integrated PostgreSQL for secure storage and retrieval of parsed resume data, ensuring data integrity and scalability.

Automated Testing & CI/CD Pipeline | Python, Docker, Jenkins, Shell scripting

- **Built** an automated **CI/CD pipeline** using Jenkins and **Docker**, streamlining the compilation and deployment of LaTeX documents.
- **Developed Python** scripts and **shell** scripts to automate integration tests, reducing manual testing effort by 40% and improving **engineering discipline**.
- Integrated **Git** hooks to trigger automated builds and tests upon code commits, ensuring continuous quality assurance and faster feedback loops.

SKILLS

Languages: Python, JavaScript, TypeScript, Go, SQL, **Shell Scripting**
Frameworks: React, Node.js, FastAPI
Tools & Platforms: AWS, Docker, Kubernetes, Git, Linux, Terraform, Prometheus, Redis, PostgreSQL
Concepts: System Design, Machine Learning Fundamentals, Cloud Architecture, Performance Optimization, Platform Reliability, DevOps, FinOps
Soft Skills: Teamwork, Communication, Problem Solving, Leadership, Collaboration

CERTIFICATIONS

AWS Certified Solutions Architect – Associate
Certified Kubernetes Administrator (CKA)

ACHIEVEMENTS

Winner of Smart India Hackathon 2024 (Healthcare category)
Secured Global Rank 420 in CodeChef Starter Challenge
Top Contributor Award at TechSolutions Corp (Q4 2024)

EDUCATION

National Institute of Technology	2024
<i>B.Tech in Computer Science and Engineering</i>	<i>GPA: 8.8</i>
